

Maths

Pupils will explore the concept of division by sharing objects into equal groups.

Pupils will begin to look at finding a half and a quarter of a shape.

Music

Pupils will use their bodies to sing and perform traditional rhymes. Can you guess the rhyme from the clues?

LaaaaLaa-LaaaaLaa - La
La La

Art

Have you ever heard of a Teddy Bear portrait? Pupils will sketch a portrait of their favourite bear. They will then transfer their portrait onto polystyrene sheets so they can create prints of it.

Design and Technology

Pupils will become toymakers in their workshop. They will take inspiration from toys past and present, to design and make their own mechanical toy that moves.

Religious Education

Pupils will visit places of worship and explore what they mean to the people who worship there. They will visit through images, videos and trips a church, mosque and a Buddhist temple.

KS1 Toys Past and Present

Reading VIPERS

Focus Book— Lost in the toy museum by David Lucas.

History

Pupils will take a journey in a time machine from the present day to the past. The time machine will stop off at various periods of time, over the last 200 years. When pupils get off the time machine they will explore the toys children played with and compare them to the toys that they play with in the present.

Science

Pupils will become amazing builders. The Three Little Pigs are asking the pupils to help them find the best materials, based on their properties, to build the pigs a new home.

English

The pupils imagination will come to life by being immersed in reading and listening to classic toy stories as well as watching animations to inspire the pupils own tale of a lost toy.
