

History

Victorian Britain: Peasants v town folk, lifestyles and diets

A look at British history as we investigate the life and times of Victorian Britain. Children will learn the key dates and places involved in this era and also any key and influential people.

We will be taking a close look at the lifestyle choices and diets of people from Victorian Britain.

English

Persuasive Writing/Information Texts

Children will create information texts about healthy living including healthy diets and healthy food, looking at different strategies and vocabulary used to inform and persuade.

They will then use this persuasive writing knowledge to create a poster and film an advert for their chosen smoothies which they will make in DT.

Who has what it takes to make it on the big screen as Key Stage 2 enter their very own dragons den!

Geography

Enough For Everyone

In this topic, children will learn where their food comes from. We will find out where resource such as power and food come from, and look at ways in which natural resources can be conserved.

Children will have the chance to consider how their actions impact on others around the world, and to think about the changes that they could make to try to ensure that natural resources are shared so there is enough for everyone.

Healthy Living

RE

Worship: How believers worship

This half term, children will explore what worship is, what it means to religious believers and how believers worship differently.

We will look at and discuss the freedom to worship around the world and how different faiths choose to worship.

Watch out for our RE Week this half term!

D/T

Super Scrumptious Smoothies

With healthy living in mind, we will sample several scrumptious smoothies before tasting fragrant, farm-fresh fruits.

With our favourites chosen, children will create their very own Super Scrumptious Smoothie as we prepare for the first ever 'Great Gilly Smoothie-Off'

PE

Racquet Sports

As we start to look forward to a summer of sports, children will take to the courts and showcase their tennis skills. Leaning hand-eye coordination and the skills required to engage in fun tennis activities.

Will we find the next Tim Henman or Johanna Konta?

Science

Nutrition & The Circulatory System

In this fascinating topic, we identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood.

We recognise the impact and importance of diet, exercise, and lifestyle on the way the body functions.

Finally children will learn the ways in which nutrients and water are transported within the human body.

Art

Still Life

To help promote our topic throughout school, children will paint still life pictures of fruits and vegetables they are learning about. They will also make mod roc or papier mâché fruits and paint these for a healthy living display in the school dinner hall.

These fruits will also be used as props during their advertising campaign for their smoothie adverts.
